HAZEL DOCTOR

User Experience Designer

PROJECTS

OMNICLOUD

Desktop Prototype | https://invis.io/CRNG0UQNSUG

- Designed a SaaS cloud storage application with secure file storage, synchronization, and collaboration features. Built with Sketch and InVision

MY FITNESS FINDER

Responsive Web Application

- Allows users to find workout videos and fitness events based on exercise type and location
- Built with HTML, CSS, JavaScript, jQuery, YouTube and Meetup APIs

EXPERIENCE

FRONT END DEVELOPER

DentalPost | Atlanta, GA | Aug 2017 - Aug 2018

- Worked with an agile team in transforming high-fidelity mockups into interactive, responsive components using HTML, CSS, SCSS, JavaScript, and React.js
- Revamped browser and app interfaces for a SaaS dental staffing website with 150,000+ visitors per month
- Created HTML email templates that improved marketing campaign click-through rates by ~25%
- Pair programmed with other team members to share knowledge

LEAD RESEARCH SPECIALIST

Emory University | Atlanta, GA | Jun 2014 - Aug 2018

- Analyzed data on risk factors for mental illness and its development
- Conducted neuropsychological assessments and clinical interviews on clinically high-risk individuals
- Provided support with database development and management
- Recruited participants through clinical referrals and phone screen interviews
- Trained research assistants on data collection procedures and biospecimen management
